UM-Wales

AT A

Glance

*A University born from a rich history,
with an exciting future.*

Owned by two prestigious universities, the Universiti Malaya-Wales (UM-Wales) was established based on a mutual partnership between Universiti Malaya (UM) & the University of Wales Trinity Saint David (UWTSD), UK in 2013. Since then, the university has experienced tremendous growth, and remains committed to delivering education based on employability to develop students who are ready to contribute towards the next industrial revolution.

A collaboration between Universiti Malaya and University of Wales Trinity Saint David (UWTSD)

1893

Formation of University of Wales

Formed by Royal Charter in 1893, the University of Wales was regarded as one of the most important political and social developments in the nineteenth century.

1905

Formation of Universiti Malaya (UM)

The oldest university in Malaysia, Universiti Malaya has its roots in Singapore with the establishment of King Edward VII College of Medicine on 28 September 1905.

2013

Formation of IUMW,
joint-venture of
UM and UWTSD.

2015

First Convocation

2024

Rebranding
"Universiti Malaya-Wales"
(UM-Wales)

2026

A community of almost
3000 students, staff and
alumni from across the
globe.

Overview

Whether for professional or personal development, a master's programme can be a great investment for your future. Master degrees at UM-Wales are designed to be flexible, and are offered through a mixture of lectures and seminars, as well as one on one supervision.

Our learning facilitators are academics and industry practitioners with a wealth of experience in their respective fields. Programmes maintain a focus on current industry trends and practices, with the intention of producing graduates who can meet industrial needs on a global scale.

Our Master of Science in Project Management integrates advanced professional knowledge with technical, practical and cross-cultural management of projects in a flexible learning environment with global exposure.

The programme is designed with industrial orientation, and will benefit those in a range of sectors and industries. Students will be able to demonstrate a body of knowledge in project management within various functional areas such as construction, engineering, aerospace, architecture, maintenance, facilities management, disaster management, agriculture, biotechnology, oil & gas, logistics, factory automation, information systems, information & communication technology, digital technology, education, research & development, management and operations. The learning facilitators are academics and industry practitioners with a wealth of experience in the field. Emphasis is given to managing physical and virtual project teams with real-life case studies. The strong technical and practical courses will prepare graduates to lead successful projects in a VUCA world.
